OBJECTIVE

Aspiring Electronics And Communication Engineering Student With Strong Interest In Software Development, Python Programming, And Problem Solving. Passionate About Learning New Technologies, Developing Innovative Solutions, And Contributing To Tech-Driven Projects In A Collaborative Environment.

EDUCATION

2023 – 2027

CGPA : 8.21

Bachelor of Technology in Electronics and Communication Engineering, Srinivasa Ramanujan Institute of Technology

2021 – 2023

Percentage : 89

Sri Medha V Junior College

2020 – 2021

Percentage : 98

Sri Gayathri English Medium High School

SKILLS & ABILITIES

Proficient In C Language and Python, Basic Knowledge in Html, CSS And Arduino Programming With Hands-On Experience In IoT Projects And Embedded Systems.

PROJECTS

DIGITAL SMART MENU SYSTEM

- HTML, CSS, Python

Developed a smart menu system for restaurants that allows customers to place and cancel orders, view special items, and make payments through a web interface. The system also helps kitchen staff manage orders efficiently.

GESTURE CONTROLLER LED

- Opencv, MediaPipe, Python, Arduino

Built an interactive Gesture-Controlled LED System. The goal was to create a hands-free interface. Using a standard webcam, Python, and the MediaPipe library, the system tracks hand landmarks in real-time. It calculates the number of raised fingers and sends those commands to an Arduino, which turns the LEDs on or off. It essentially bridges the gap between computer vision AI and physical hardware.

ACHIEVEMENTS

- Secured First Prize In The Nextgen 2025 Iot Hackathon Conducted At SRIT.
- Won Best Project Award At Sarvagyna 2025 Project Expo Conducted At JNTUA Pulivendula.
- Secured Third Prize At E-UDBHAV 2026 Project Expo Conducted At ALTS.
- Participated In IDE Bootcamp Phase-1 At Puttaparthi.
